PROFESSIONAL SUMMARY
A Computer Science student with a strong academic and project-based foundation in relational database design and SQL. Proficient in Javascript, MongoDB, MySQL, and Docker. Seeking to apply and expand database administration and design skills as a Junior Database Engineer Intern.

TECHNICAL SKILLS
Databases: SQL, MySQL, PostgreSQL, Relational Database Design (ERD)
Languages: PHP, JavaScript, C,C++
Tools & Technologies: Git, GitHub, Docker, Command-Line Interface (CLI), Postman, JSON, REST APIs.

PROJECT EXPERIENCE

E-Commerce Bookstore Database | MySQL, SQL, MongoDB
* Designed and implemented a relational database schema in MySQL to manage user, book inventory, and transaction data.
* Optimized SQL queries for reporting, improving data retrieval speed by 25%.
* Created and documented the database.

EDUCATION
Bachelor of Science, Computer Science | Karatina University | Expected Graduation: 2027
Relevant Coursework: Database Systems, Data Structures & Algorithms, Software Engineering

CERTIFICATIONS & TRAININGS
Cybersecurity Training | ICT Authority
Software Development | Power Learn Project
